COMMERCIAL INTELLIGENCE

WEDNESDAY EVENING, APRIL 15.

BUSINESS, as usual, has been at the mercy of the changeable character of the political advices from home. Influenced by a general decline in Securities on the London Stock Exchange yesterday, we opened here to-day with strong markets for Seeds and Wheat, everything else depressed; but since the receipt of the political message in the afternoon, the positions have been reversed. Seeds and Wheat have quietened down, while Government Paper and kindred securities have strengthened. This sort of thing we must of course be prepared for, so long as the political situation remains so indefinite, at the same time the longer this indecision prevails the stronger will be the impression that there will be no war.

Consols yesterday were ¼ lower at 94⅛, and Rupee Paper was quoted at £73¼ for Fours, £75½ for Fours-and-a-half, a decline of ⅜ and ½ respectively. On the other hand, the 3½ per cent. Indian Sterling Loan was ½ better, as also were French Rentes in Paris.

In the Mincing-Lane markets Linseed keeps firm, with a further partial rise of 3d. per quarter and the same report applies to Rapeseed. Poppyseed is 1s. per quarter higher. Wheat is unchanged in London, but Liverpool quotations are advanced 4d. per cental in No. 1, and 3d. in No. 2 Soft White from Friday.

Cotton in Liverpool yesterday was again quiet, with sales of only 7,000 bales. Spot quotations were reduced 1-16d. in Mid-Uplands, Fine Broach; and Good Ginned Dharwar and Americans to arrive were 5-64d. lower in near and 1-32d. in distant positions. In New York, however, futures were 12 points higher at 11·17 for August.

The market here opened quiet, with a decline of Rs. 1 to Rs. 2 per candy, and little disposition on the part of buyers to do anything at that. In the course of the day, however, rather more inquiry was apparent, and we close to a somewhat firmer feeling. Business has been done at Rs. 224½ for best Broach ready and at Rs. 210 for Fine Bhownuggur for April, but we have not heard of any business for May. Receipts are still very light, and for the current week do not promise to be much over the half of last year.

WHEAT opened very strong this morning, and business to some slight extent was done on the basis of Rs. 3-14 for best Soft White, Rs. 3-13 for No. 1 Club Delhi, and Rs 3-9 per cwt. for Ahmedabad. For a time an advance of as. 1 per cwt. was asked on these figures, but, this caused buyers to withdraw, and at the close the morning's rates are not obtainable.

LINSEED is firm at unchanged prices.

FREIGHTS are rather firmer, and the market may now be called 27s. 6d. all round, and very few boats offering from home at that. Quotations are :—

	Ready.	Forward.
Liverpool	27s. 6d.	27s. 6d.
Continent	27s. 6d.	27s. 6d.
Open Charter	27s. 6d.	27s. 6d.
Havre	27s. 6d.	27s. 6d.
Antwerp	27s. 6d.	27s. 6d.
Marseilles	32s. 6d.	32s. 6d.
Trieste-Venice	35s.	33s. 9d.

COALS keep very firm, and the regular sellers are practically out of the market. A cargo of Cardiff has been retailed to-day to arrive at Rs. 15-8, but there are no further sellers even at that.

EXCHANGE has shown a very quiet tone, and very little business has been done during the day. The banks have shown more willingness to buy than sell, and have practically reduced their buying rates 1-32d., but so much uncertainty is felt as to what to-day's biddings in London may bring forth that neither buyers nor sellers are disposed to commit themselves to transactions of any moment in anticipation. We quote :—

Bank Bills on demand	1s. 7d.	per Rupee.
Do. Telegraphic	1s. 6 15-16d.	,,
Do. Three months' si,ht	1s. 7 5-32d.	,,
Credits ,, ,,	1s. 7 11-32d.	,,
Francs ,, ,,	20¾.	,,

GOVERNMENT PAPER opened very weak owing to the decline in Consols and lower quotations from Calcutta. Fours for delivery in a month were actually sold as low as Rs. 92½, and for a time Rs. 92¾ was the quotation. After the political telegram was known rates recovered to Rs. 93 for cash and Rs. 93½ for a time. Fours-and-a-half are quite nominal at Rs. 97.

SHARES are dull all round. In Spinning Mills rates are in most cases Rs. 5 per share lower, and Press Companies are also weak and lower. Berars by Rs. 15, Prince of Wales by Rs. 5, and New Indian by Rs. 2½. Bombay-Burmah Trading Co. are again Rs. 50 lower at Rs. 3,500 for old shares. In Rs. 695, but we do not hear of sellers at that.

THE RETURN OF THE AMEER.

(FROM OUR SPECIAL CORRESPONDENT.)

JAMRUD, APRIL 15.

The Ameer left Peshawar at 8-30, accompanied by Colonel Waterfield and General Gordon, with an escort composed of 300 men of the 1st Bengal Cavalry. They arrived here at ten. Handsome Russian tents have been pitched, where they will stay for the night. They will make three marches to Lundikhana, where the escort leaves the Ameer, our control of the road through the Afreedi country exercised by Major Warburton ending there.

The Viceroy and party arrived yesterday at Koshalghur, sixty miles from the Indus, the banks of which were crowded with wild tribesmen. There was much excitement on seeing the Viceroy. His Excellency leaves for Lahore on Friday.

EURASIANS AND CIVIL EMPLOYMENT.

(FROM OUR OWN CORRESPONDENT.)

MADRAS, APRIL 13.

Mr. White, President of the Eurasian Association, has received a reply from the Secretary of State to his memorial on the subject of the more extended employment of Eurasians having an Indian domicile in the public service. The principal complaint was that Eurasians and Europeans did not receive a fair share of the benefits as regards employment in the public service which law gives to the natives of India, and that there was a tendency on the part of Government to interpret the term natives of India as applying only to persons of pure Asiatic blood.

While sympathising with the memorialists, the Secretary of State agrees with the Government of India and the Government of Madras that it is not desirable to adopt special measures for their benefit. He proceeds :—" There is nothing in the rules framed under section VI. of Statute 33, Victoria, Chap. 3, which bars the employment of Europeans and Eurasians who fall within the definition of natives of India, given in that section ; and I have every confidence that all appointments made under these rules, or any other rules framed in virtue of the statute, will be made with reference solely to the public good, and in no way in the interest of any particular class, whether of domiciled Europeans or Eurasians or pure Asiatics."

Eurasians here regard this decision with much satisfaction.

THE VICEROY'S COUNCIL.

(FROM OUR OWN CORRESPONDENT.)

MADRAS, APRIL 15.

The question who will succeed Mr. Gibbs in the Viceregal Legislative Council is being discussed here. Three names are mentioned : Mr. Carmichael, who is now at home, and must retire in July if not appointed to the Council ; Mr. Bates ; and Mr. Webster, the present Chief Secretary ; and Mr. Garstin, member of the Board of Revenue. The second will doubtless have Mr. Duff's support, while the last is the local favourite for the post.

MARRIAGE WITH A DECEASED WIFE'S SISTER.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, APRIL 15.

In the case of Lopez *versus* Lopez, involving the question of the validity of marriage with a deceased wife's sister, the Chief Justice, sitting with Mr. Justice Wilson, permitted Virginia Lopez to appeal to a full bench *in forma pauperis*. Their lordships relieved her of all costs in appeal, but the Chief Justice expressed his inability to ask counsel to take up her case without fees, such not being the practice here, although Mr. Justice Wilson said it was current in Scotland. The Chief Justice on a former occasion had impressed on the Eurasian community the desirability of taking up her cause, as, he said, some of them were similar circumstanced in ignorance of the law.

We hear that a number of Parsee gentlemen propose to offer themselves for enrolment in the Mounted Volunteer Corps, should the movement be sanctioned by Government.

DEWAN BAHADUR MANIBHAI JUSBHAI, the Dewan of Cutch, has written to Mr. Dadabhoy Nowrojee that His Highness Maharaja Rao Saheb of Cutch has been pleased to subscribe Rs. 7,000 to the Lord Ripon Memorial Fund. His Highness considers that the form which the memorial is proposed to take is excellent, and has his full approval, institutions for imparting technical instruction being a pressing want in India.

MR. JUSTICE BAYLEY yesterday intimated to the legal profession that, from Monday next after the disposal of a case part-heard before his lordship, he would sit daily in the Insolvent Debtors' Court to dispose of the arrears of business.

THE sale of work on behalf of the Ladies' Association schools and Zenana work will be resumed at the bungalow of the Rev. G. Ledgard, near the Byculla Club, to-day and continued to-morrow. The association is doing good work among the native Christians in Bombay, but unfortunately its operations have been seriously hampered by a want of funds. The articles to be sold are principally the handiwork of lady friends, and include children's clothing, antimacassars, mats, &c. The prizes have been marked low in the hope of commanding a ready sale. The sale on each day commences at 11 a. m.

THE Town Council discussed yesterday the correspondence relating to the question of the assessment of the Port Trust properties, and on the motion of Dr. Peterson accepted the conclusions arrived at by the Committee which had been appointed to consider the subject. It was resolved that the principles on which the Municipal Commissioner had proposed to assess these properties were fair and equitable, that the sums hitherto fixed and paid by the Trust on account of assessment appeared, to some extent, to be admitted by the Trustees themselves to be too small, and that the sum payable by them for the year 1884-85 should be Rs. 2,08,574, which the Municipal Commissioner considered to be fairly due to the Municipality. Colonel Merewether alone dissented from this proposition, contending that the Council were not yet in possession of all the arguments that could be advanced on behalf of the Port Trust. The chairman was requested to forward the resolution to Government for consideration, when they decided the amount of assessment to be paid by the Trust for the current year.

AN error has crept into our report of the finding of the Marine Court in the inquiry as to the cause of the damage sustained by the s.s. River Ettrick which it is desirable to correct. Our report says that while the steamer was proceeding down the Gulf of Suez she struck or touched on something in the vicinity of Ras Gharib. It was in the vicinity of False Ras Gharib that the accident occurred. The two places are quite distinct, being some twelve or fourteen miles apart.

PROBABLY one of the results of the present Peshin demonstrations will be the establishment of a cantonment at Abdulla Khan Kila, 50 miles further north than Quetta, if not at Chaman 15 miles nearer Kandahar, up to which point we hold the country. The following are the stations an army would make a halt at on its way from Pir Chowki, the railway terminus at the mouth of the Bolan :—Pir Chowki to Kohandilani, 8 miles ; to S. Kirta, 8 ; to Kirta, 4 ; to New Bibi Nani, 9 ; to New Ab-i-gum, 7 ; to Mach, 6 ; to Sar-i-Bolan Head of the Pass, 4 ; to Lower Dozan, 4 ; to Darwaza, 7 ; to Sar-i-Ab, 17 ; to Quetta, 6. From Quetta onwards—to Mehtarzai, 9 ; to Dinar Karez, 12 ; to Segi, 9 ; to Gulistan, 10 ; to Abdulla Khan Kila, 9. From Abdulla Khan to Kandahar would be by seven stages :—To Chaman, 15 miles ; to Gatai, 17 ; to Dabrai, 9 ; to Mel Karez, 12 ; to Abdul Rahman, 14 ; to Mand-Hissar, 15 ; and into Kandahar, 10. From Quetta to Kandahar is thus 144 miles.

THE Harnai route to Kandahar is different as far as Chaman. The Harnai route stages are as follows :—Sibi to Nari Gorge terminus, 7 miles ; Khelat-i-Kala, 10 ; Ganda-kin-Daf, 9 ; Guneji (Spin Tangi), 16 ; Harnai, 17 ; Nasek, 8 ; Sharag, 9 ; Khost or Shor, 10 ; Dargi, 8 ; Mangi, 3 ; Kach, 14 ; Gharkai, 14 ; Bagh China, 10 ; Haikalzai, 12 ; Asad Khan, 13 ; Abdulla Khan Kariz, 9 ; and Chaman, 9 as before, to Kandahar. This route is 30 miles longer than the Bolan one. A third route from Chaman to Kandahar follows the Barghana road.

THOSE who are going to Pishin may like to know the maximum heat and amount of rainfall they will be called on to endure. In 1881 at 4 p.m. on July 1, the heat was 91° 5c. ; on the 2nd, 98° ; on the 31st, 90° ; at 5 a.m. on these days it was 81° ; 81° (2nd), and 82° (31st). Three inches of rain fell during the month, the total rainfall of the year being 25 inches.

THE whole of the Calcutta Preventive Service, 150 in number, have forwarded a request to the Local Government to be allowed to join the Volunteer Reserve. Last week the Reserve received the addition of no fewer than 200 new members. A scheme has been organized with the object of utilizing the steam launches on the Hooghly for torpedo defence.

THE Afghans who fought the Russians the other day were, it is believed, headed by Ghaus-ud-din, the well-known Afghan commander. Quite recently Ghaus-ud-din was at Penjdeh, and he was believed to have under him a force of 2,000 men, some of whom, however, were at Maruchak and Bala Murghab. "The Afghans," says the *Englishman*, "will have no difficulty in getting together a large force of tribal militia and irregulars, and unless they listen to pacific counsels, the reverse at Penjdeh—which must also be considered something of a surprise—will doubtless be quickly followed by reprisals."

THE appointment of Mr. Durand to succeed Sir Charles Grant in the Foreign Secretaryship is meeting with general approval. The Allahabad paper says :—"Of the Central Asian question Mr. Durand has a knowledge that may be called hereditary, and it is very little of a secret that for a long time past in all business coming under this head his influence has gone for something much more than an Under-Secretary's. A long sojourn in Kabul, too, to say nothing of later experiences, have given him the personal acquaintance with the chief actors on the scene which diplomatic science values so high. Young in years, in counsel old, Mr. Durand has judgment and energy, patience and firmness in a degree in which they are rarely combined. There are other names that could be mentioned, perhaps, with qualifications in some respects as great as his ; but it is just the combination of qualities which makes Mr. Durand as safe as strong, that gives us reason to regard his appointment as a matter for public satisfaction."

THE *Statesman* appears to be in despair because the Bombay Municipality have appeared in the market as borrowers of the sum of Rs. 10,00,000, bearing 5 per cent. interest. "Although," it says, "the loan has the sanction of the Supreme Government, it will be understood that it is not guaranteed thereby, but is issued on the security of the general revenue of the Municipal Corporation of Bombay, subject to any prior charge thereon. Tenders will be received by the Municipal Commissioner of Bombay up to 2 p. m. of Monday, the 20th April. We have thus a new municipal stock of a peculiar kind added to the existing securities. We cannot think that the Government acts wisely in sanctioning this variety of loans. The security offered in the present case is satisfactory enough in itself, but is not of a nature to command the price which the sanction of the Government to the loan ought to procure. It is useless, however, to protest at a time like this at anything that is done."

A CORRESPONDENT at Yercaud, Shevaroy Hills wrote as follows to a Madras paper on the 12th instant :—"A very peculiar noise, the cause of which is as yet undivined, was heard on various parts of these hills this morning about 8 o'clock It sounded somewhat like distant thunder, but the sky was quite cloudless at the time. The noise lasted for about 40 seconds or more, and died away gradually. An earthquake was the first thought that suggested itself, but no tremor of the earth was perceived. It seemed to come from an easterly or north-easterly direction. The noise was too prolonged for an explosion of an ordinary nature, and died away too gradually, though somewhat sudden in its commencement. It would be interesting to know if it was heard in other parts of the country. I was five miles from Yercaud when I heard it, and on return here I found it had been distinctly noticed here also, and an earthquake was expected ; but as to its origin we are all puzzled."

REFERRING to the seclusion in which the Ameer was kept during his visit to Pindi, the *Indian Daily News* says :—"One would have thought that it would have been part of the policy of Government to let him feel that he was at liberty to see for himself and to judge for himself, to gather up opinions, and to make friends and acquaintances. Indeed, looking to the part the Afghans will have to play, it was in every way desirable that all Pindi should have been thrown open to them, and they should have been encouraged to go about as friends among friends, and to drop, as much as possible, that sham exclusiveness they have practised, to the injury of both themselves and India. There are plenty of men in the services who have known Ameer Abdur Rahman at one time or another ; but it seems as if a knowledge, that is, a personal knowledge, of the Afghans and their Prince was considered a most undesirable qualification in a visitor to Rawal Pindi. Sir Lepel Griffin seated the Ameer on the throne at Cabul, but this disqualified him for taking part in the ceremonies at Rawal Pindi. Dr. Bellew knew the Ameer when he was a youth ; but although his acquaintance with Afghans would have made him a welcome medical attendant on the Ameer, he was kept away from the great gathering. Then Sir O. St. John is a man whose place was by the Viceroy's side on such an occasion ; yet he, too, was kept in Cashmere. The only officials who have had access to the Ameer are the Foreign Secretary, Mr. Durand, Colonel Talbot, the Interpreter, and Colonel Henderson, the Master of Ceremonies. The Ameer must have noticed the peculiar isolation in which he was kept. He has met with a very great reception, but it is official through and through, and only official. He has not been welcomed to India, but he has been petted by the Foreign Office."

THE Public Health Society, founded a few months ago in Calcutta, is already doing useful work. Besides organizing public lectures, and calling attention to various sanitary topics, the Council of the Society has addressed two important communications to the authorities with reference to the works for the proposed docks. One of these had reference to the necessity of better sanitary arrangements for the large number of coolies at work at the excavations, and for a proper water-supply for their use. This necessity was, a local paper understands, at once admitted by the authorities, and improved provision was made in accordance with the Council's recommendation. The second, in the form of a memorandum drawn up by Mr. R. C. Sterndale, had reference to a matter of more permanent importance, viz., the necessity of providing proper drainage for the large area which, by the construction of the docks and the locking of Tolly's Nullah at either end, would be practically converted into an island. Mr. Sterndale's memorandum has been forwarded by the Government to the Committee appointed by the Local Government to consider the sanitary aspects of the proposed docks.

THE Paris correspondent of the *Times* announces an imminent and most important revolution in maps. This is to be brought about by a Portuguese inventor, who has discovered a chemical and mechanical process for reproducing plane maps with the curves and altitudes in relief, so as to correspond absolutely with the elevations established by accurate observations. These new relief maps are drawn on thin paper, but they are not put out of shape even by M. de Blowitz's tread, which is an excellent testimonial to their durability. They may be rolled up into a very small case, and are not injured by water. "At a single glance," it is added, "one can take in the whole topography of a district, its defiles and heights, its watercourses, and all the lesser obstacles of the country." The proper authorities in France, Germany, and Italy are already said to be examining the matter, but the invention, says a home paper, would be so far more important to England than to any other Power that we shall, of course, have nothing to say to it.

THE Reverend Prebendary Barnes, Rector of Heavitree, the literary executor of General Gordon, writing to the Lord Mayor of London, says :—

The instances—and they are many—when the late General Gordon, both in Egypt and Palestine, acted in the spirit of the good Samaritan, and with personal care, as well as the gift of such money as was requisite, saw that the native children were cared for, assure us that the Prince of Wales encouraged a most felicitous suggestion in placing before the Mansion House Committee a hospital near Port Said for the sick and suffering of all nations. Not only travellers along that great highway of the world, but the mixed population in the neighbourhood, will receive benefit from this memorial to one who desired to be their benefactor. My own experience in that part of Egypt taught me that ophthalmia is a disease which is quickly caught, quickly cured, but which, without due care, may become extremely painful ; and it is a disease of that character which a hospital at Port Said might combat successfully. Without quoting General Gordon's words, his acts throughout his life are the best proof possible that we may regard Admiral Sir E. Inglefield as having suggested a fitting memorial in strict accord with the wishes of him whom we commemorate. Mr. Power, the Consul, and the *Times'* correspondent at Khartoum, is so often mentioned in the letters of last year from Khartoum that I hope his name will be held in honour in this hospital.

IN view of the proposed International Telegraphic Conference to be held at St. Petersburg this year, a communication has been sent to the English Postmaster-General urging the necessity of obtaining some modifications in the present excessive and unequal rates charged for telegraphic messages between England and other countries. It is pointed out that while the rates for France are 2½*d.* per word and for Belgium 2*d.* per word, the rates for Germany and Holland are 3*d.*, Norway 4*d.*, Austria 4½*d.* Italy 5*d.*, Sweden 5½*d.*, and Russia 9*d.* per word. The inequality and unfairness of the rate is shown by the fact that a message of twenty words from England to Russia costs 15*s.*, while one of similar length from Russia to England is four roubles, equivalent to 8*s.* only. The charges to Sweden and Norway are likewise excessive when compared with the rates to Germany and Holland. The Postmaster-General is urged to take such steps as he may think expedient for procuring a revision and reduction of these charges.

THE final and official announcement that Mr. Lowell is to be "replaced" as Ambassador in London has been heard with great regret. The American Ambassador has made for himself a place in English society which few strangers (if Mr. Lowell is to be considered a stranger) ever fill. His departure will cause great sorrow to large numbers of Englishmen. Could he not see his way, the *St. James's Gazette* asks, to adopt the *Times'* suggestion and stay in England as the unofficial representative of American literature, learning, manners, and knowledge of the world ? He would do for the position admirably.

ONE of the New York papers has been engaged in a discussion on translations. There seem to be some curious errors in the versions of Daudet and other French novelists current in America. "Organs of Barbary" is the equivalent given by the translator of "Numa Roumestan" of "Orgues de Barbarie" ; that is to say, barrel organs. The Gascon speaker who asks for lemonade in his broad accent, "Garcon, de gazeuse," was made to order a "thimbleful of gazeuse." Still more grotesque mistakes are quoted from French translations of English works. One of the most amusing instances is to be found in a recent number of *Le Livre*, in which the title of Mr. Hollingshead's work "Foot Lights" is printed "Foot Tights," and with equal ingenuity rendered "pantalons à pied." Can it be that the translator has read some of Mr. Hollingshead's recent confessions, and "wrote sarcastic ?"

THE correspondent of an up-country paper has been scolding the ladies for their demeanour at the Rawal Pindi Durbar. He writes :—"In the first place, they were somewhat unfortunately placed opposite the native officers, and the native officials of the Punjab ; and at the far end of the tent, where the natural levity of their dispositions could not be effectually controlled by the compelling eye of the Viceroy. In consequence of the latter part of the arrangement, they behaved indifferently throughout. To begin with, they indulged in a small demonstration of disfavour when the Hon'ble Mr. Ilbert entered the Durbar tent. Then they refused to conduct themselves with the church-like seriousness which becomes a Durbar ; and talked and laughed persistently throughout the ceremony, particularly while the presents of the Ameer were being brought in. Indeed, the sounds from the ladies' block were audible all over the tent ; and seriously interfered with hearing the words which the Ameer addressed to the Viceroy and those that Captain Talbot addressed to the Ameer. Finally, not a few ladies got up on chairs, and gazed long and deliberately at the Ameer and the Viceroy through field glasses."

DEATH UNDER SINGULAR CIRCUMSTANCES.—An inquest was opened yesterday by the Coroner, Dr. Blaney, at the Morgue, Carnac-bunder, upon the body of Nowla Ooma, aged 45 years. Deceased was a Marwaree shroff. He was chief partner in the firm of Nowla Ooma, having their place of business at Kalbadevee. For the last four or five months he had been ailing, and it appears that on Monday evening a native hakim who treats patients near the Mahaluxmee Temple prescribed for him. He was given three pills and told to divide each pill into four parts, and take one part every day, and not to expose himself, as they were dangerous pills. The hakim said they contained senna and castor-oil seed and three other ingredients. Deceased took his pills home, and at 5 o'clock on Tuesday morning he took one of the pills, but it proved so powerful in its effects that his friends became alarmed and sent for Dr. Bhaneejee Khory, who remained about 3 o'clock and prescribed some medicine, which he said should be given every hour. The medicine was brought from Dr. Ardaseer's dispensary, and a dose was given at 1-30 and another at 2-30 p.m. Deceased continued to become weaker, and died at 3 p.m. on Tuesday. The inquest stands adjourned for further inquiry.

SMALL CAUSE COURT.—APRIL 15.

(Before Mr. W. E. HART, Chief Judge, and Mr. N. SPENCER, Second Judge.)

FRAUDULENT MARWAREES.

OOKA BHERA AND OTHERS *vs.* GOWRA, WIDOW, AND OTHERS.

MR. NUSSERWANJEE NOWROJEE, on behalf of the appellants and defendants, applied for a rule *nisi* calling upon the plaintiffs to show cause why satisfaction should not be entered on the two decrees obtained by them against the defendants, and why execution issued thereon should not be satisfied. Mr. Nusserwanjee moved under section 244 of the Civil Procedure Code, and also under section 95 of the Limitation Act. He said that their honours would see from the affidavit filed by the defendants in support of the motion that the plaintiffs, who are Marwaree money-lenders, had grossly abused the process of the court by a series of frauds perpetrated against these defendants in obtaining an attachment against their property after the two decrees had been satisfied. The defendants stated that on the 13th July last the plaintiffs had obtained a decree from Mr. J. Warden, the third judge, against them in the first case for Rs. 113-11, payable by monthly instalments of Rs. 5. They paid seven instalments into court on account of the decree. On the 11th of last month another decree was passed by Mr. W. E. Hart, the Chief Judge, against these defendants, at the instance of the same plaintiffs, for Rs. 526 and court costs, payable within eight days. Since the passing of the second decree negotiations had been going on between the parties for a settlement of the two decrees through several Marwarees, including the defendants' other creditors, and eventually a settlement was effected on the 19th March last for Rs. 200. It was then proposed by Oodeyram Kessa, Nowla Nema, and others, and consented to by the plaintiffs, that a sum of Rs. 50 should be paid in cash to the plaintiffs, and for the balance of Rs. 150 the plaintiffs should obtain from the defendants a fresh promissory note, payable by instalments of Rs. 6 per month. In pursuance of the settlement the plaintiffs accepted a transfer of Rs. 50 upon one Veerchund Chella, and the defendants passed two promissory notes, one for Rs. 100 and the other for Rs. 50, on the 19th ultimo. These two promissory notes were written by Nowla Nema, and attested by Loonha and Dhoola, Marwarees. The plaintiffs thereupon passed a release in respect of the two decrees, stating that they had no claim against the defendants in respect of the two decrees. An endorsement of the settlement was made by one Oodeyram Kessa and one of the plaintiffs, Verda Ooka, on the back of the bill of costs in the second suit, which is now in possession of the plaintiffs. The release was also written by Oodeyram Kessa, and one of the plaintiffs signed it, and it was attested by Dhoola Raychund. On the 30th ultimo the defendants discovered that the release had been lost, whereupon information was given to the police, and the defendants' wife, a woman, and the plaintiff Verda Ooka were arrested. The police after instituting inquiries directed the defendants to go to a magistrate. On the 9th instant the plaintiffs brought an attachment in the first case and attached five buffaloes belonging to the defendants, when they learnt that plaintiffs had committed fraud on them. The defendants then came to this court, and stated the whole of the circumstances to the clerk of the court, and requested him not to part with the decree in the second case.

OPINIONS OF THE PRESS.

Drs. Engler and Jansz are, by the exercise of their peculiar skill, doing a great deal of good in Bengalore. We have paid a casual visit to Dr. Engler's surgery to see for ourselves what is being done in the way of cures. Of coure we speak unprofessionally, but we do not know that professional knowledge is required to judge as to results when seeing and hearing of patients themselves are freely allowed. Three cases of blindness, two nearly total, and one total in one eye, were, according to the testimony of the sufferers themselves, progressing with wonderful favourableness. One in which inflammation and granulation of the inner surface of the eye-lids had lasted for months, and had caused ulceration of the eye-ball, was almost cured after about a fortnight's treatment, although previous treatment had failed to give relief. In another case, where both eyes were seriously affected the patient was considerably better, and in the one in which the sight of one eye had been lost, it was restored, and though not completly recovered, was on a fair way towards it. This patient freely and without effort read from a newspaper with the injured eye, though no sight whatever was in it a few days previous. In cases of deafness Dr. Engler seems even more certain of success than in blindness. One little girl, who had been deaf for years, was restored so far as to be able to hold a conversation in ordinary tones; she heard the softest spoken words and answered to them, and heard the ticking of a watch held from four to six inches from her ears. Two soldiers belonging to the garrison, suffering from deafness, have been cured; one, a man who had been in hospital for weeks and been blistered and put to great pain by ordinary treatment, perfectly recovered his hearing in twenty-four hours.

We are quite aware that any detailed notice of such cures as these are apt to be looked at askance by the general public. But this, we fancy, is the result of the infrequency of such notices. Why men who benefit the suffering members of the public, as Drs. Engler and Jansz are undoubtedly doing, should receive no attention from the press, when whole columns are given up to descriptions of the tricks of some travelling juggler, it would be perhaps hard to explain. It is a fact, however, that while the public naturally has to pay for both, the one who does most good is the least noticed.—*Bangalore Spectator, Dec.* 3, 1883.

DR. DE ROOS'
CONCENTRATED GUTTÆ VITÆ OR VEGETABLE LIFE DROPS.

THE alchemists of old spent years in endeavouring to find out the means of transmuting the baser metals into gold, but in vain. It was, however, reserved for a physician of the 19th Century to make a far more valuable discovery in occult science—the result of deep research into the arcana of Nature's mysteries—which is here offered to the world; and the pleasing results of a quarter of a century, during which time this wonderful medicine has been tried in every quarter of the globe, all corroborate the most sanguine of the Inventor's hopes. Thousands of voluntary testimonials from grateful patients, testify to the fact that from this remarkable tonic alone, new life has been imparted to numbers of debilitated individuals; and it is not too much to say that hundreds of persons are at the present day in full enjoyment of their mental and bodily powers—in thorough good health—who previously were confirmed hypochondriacs, had been given up by the faculty as incurable, and left to drag out the remainder of their existence a misery to themselves, and a continual anxiety to their friends.

This great life-reviving medicine gives vitality and strength to the most shattered constitutions. It not only strengthens the system but purifies the blood, and promotes a healthy circulation of the fluids, thus imparting strength and tone to the nerves, enlivening and invigorating both body and mind. It greatly improves the appetite and restores the digestive powers, whilst for dyspeptic persons it is unrivalled. Those who (from long residence in hot climates) suffer from langour and relaxation, as also all persons going to the East or West Indies, should provide themselves with this important article of health.

Youth and age equally participate in the miraculous effects of this wondrous medicine, for whether the body be debilitated in early life, or sinking under the advance of years, a few doses will speedily afford assurance of reviving tone to the muscular and nervous systems, and through the organs of digestion, renovating the whole constitution. To the young it affords health, strength, and spirits, in place of lassitude and debility; while to the aged and infirm it assuredly furnishes great relief and comfort, by gently and safely invigorating the whole corporeal frame; and although it is not put forward as imparting immortality, it will certainly gild the autumn of declining years, and, in all cases, calmly and serenely protract the close of life. For females of all ages, as also for delicate children who cannot take cod-liver oil, the Guttæ Vitæ will be found a great boon—being far superior in its strengthening properties, and at the same time so pleasant to the palate that it can hardly be called a medicine. To married persons, especially this preparation will prove invaluable; giving strength and vigour in place of lassitude and incapacity for exertion. Price, 11s. and 22s. per bottle. The large size contains sufficient for four weeks.

PAINS IN THE BACK, GRAVEL, LUMBAGO, RHEUMATISM, GOUT, DISEASES OF THE KIDNEYS AND BLADDER, STRICTURES, &c.
DR. DE ROOS'
COMPOUND RENAL PILLS

Are justly celebrated all over the world as the most safe and speedy remedy for the above dangerous complaints, Discharges of any kind, Stone in the Bladder, and diseases of the Kidneys and Urinary Organs generally.

These celebrated Pills are an infallible remedy in the most obstinate cases. By their use alone many thousands are annually restored to health, and the agonies of gout and rheumatism may now be considered a voluntary affliction, as no one need suffer these excruciating torments if they will only have recourse to these Pills, which are confidently recommended by the proprietor as the only real specific; whilst for weakness across the loins, scanty or other deposit in the water, and in all cases of renal or urinary disturbance, they are, indeed, unrivalled. They correct acidity of the stomach, promote the functions of the liver and kidneys, thereby preventing stone in the bladder and gravel. Many complaints supposed to be nervous, often arise solely from contamination of the blood with certain impurities which should have been carried off by the kidneys. Thousands of testimonials from grateful patients attest their marvellous efficacy. In packages, 1s, 1½d., 2s. 9d., 4s. 6d., 11s., and 33s.

THE MOST WONDERFUL PILLS IN THE WORLD,
DR. DE ROOS'
PILULÆ VITÆ OR VEGETABLE LIFE PILLS

which speedily, and almost magically, remove pain and disease of whatever nature, restore cheerfulness to the spirits, vigour to the body, and strengthen all the organs on which health and life depend: they do not contain a particle of mercury, but are purely vegetable; and for all affections of the liver, flatulency, bile, sick headache, dizziness, loss of appetite, lowness of spirits, the sensations of fullness at the pit of the stomach, pains between the shoulders, and the distress arising from indigestion and general debility they will be found of unexampled efficacy. Taken on the bowels without pain or griping, impart strength to the stomach, promote a healthy action of the liver, clear the skin, remove sallowness, purify the blood, brace the nerves, and marvellously invigorate the whole system. Price 1s. 1½d., 2s. 9d., 4s. 6d., 11s., and 33s. per box.

"THE PIANOS FOR INDIA."

The experience of nearly thirty years proves that
S. ROSE AND CO.'S
SYMPATHETIC GRAND SQUARE PIANO
is, par excellence, the best suited for the climate of India.

WE GUARANTEE EACH PIANO. { "This piano was awarded a first-class certificate and medal of the Calcutta Exhibition." } WE GUARANTEE EACH PIANO.

S. ROSE & Co., have supplied many hundreds of their noted Sympathetic Grand Square Pianofortes to residents in all parts of India. No one instance has occurred of a "Sympathetic" having given way; of course the action and mechanism will wear; but S. ROSE & Co., have seen "Sympathetics" which, after twenty years' use, have, after the entire action has been renewed, been as rich and beautiful in tone as when quite new.

All parts of the instrument have been studiously cared for in the manufacture; the external case being of solid mahogany, with ornamental fret work at the openings. In regard to tone and touch it is a first-rate instrument.

The term "Sympathetic" was first used to designate the character of tone. The term has been made use of by others without scruple, and many purchasers have paid for "Sympathetics" of a most doubtful quality, and which are not entitled to the name; but are merely inferior imitations.

Cash price, in solid Mahogany Case ... ... Rs 850
,, ,, in solid Ebonized ,, ... ,, 900

S. ROSE & Co., have adopted the "One-Year Purchase-System" for the sale of their Sympathetic' Grand Square Pianofortes;—full particulars on application.

CHOLERA

SUCCESSFULLY TREATED BY THE USE OF
COTTER'S CHOLERA PILLS.

Now that the frightful ravages of cholera is the subject of controversy among our eminent Medical and Sanitary authorities, it behoves us to look to ourselves, and to seek the knowledge of a faithful reliable medicine, which, while being thoroughly efficacious, will also come within the reach of the means of everyone.

COTTER'S CHOLERA PILLS!!!

Have obtained a reputation which, if it was more generally known, would prove an eminent blessing to thousands of sufferers. The present holder has obtained the sole proprietary right from Mr. Cotter, and the cause of humanity demands, undeniably, that the public should be made fully cognizant of a remedy so easy of access.

COTTER'S CHOLERA PILLS

Surpass any other medicine in the world for efficacy of properties, and several have derived great material benefit from a medicine which has only to be tried to recommend itself, even to sceptics in matters medicinal. In every fact, Cotter's Pills are miraculous in their effects, and will eventually prove their many advantages in the face of any other choleraic preventive.
